HOME ENERGY ASSESSMENTS, EFFICIENCY, AND REBATES

Home Renovation Savings Program

\$500 Bonus for 3 or more measures

Bundle 2 or more upgrades for bigger rebates, energy savings and comfort. Bundle 3 and get an extra \$500.

Exterior Wall: Rebate pro-rated based on % complete. 20% minimum. For a semi-detached or end unit row house, you will not qualify for the full amount of the grant; the maximum you would be eligible for is 75% of the listed amounts. For a middle unit row house, you will not qualify for the full amount of the grant; the maximum grant amount you would qualify for is 50% of the listed amounts.

Level of Insulation added between Pre and Post Audit:

R-7.5 to R-12	Max Rebate: \$1,200
Greater than R-12 to R-20	Max Rebate: \$2,100
Greater than R-20	Max Rebate: \$3,600

Foundation Header: Insulate at least At least 80% of your entire foundation header area to increase the insulation value to add a minimum of R-20. Foundation headers do not count as a measure on their own, but will qualify for a rebate when combined with crawlspace wall insulation, or basement wall insulation upgrades.
Rebate Amount: \$300

Basement Slab: Insulate at least 50% of your entire basement slab by a minimum of R-3.5.
Rebate Amount: \$500

Basement Wall: Min 20% of the area required to qualify. If insulating both crawlspace walls and basement walls, max rebates for both combined cannot exceed \$1,500.

Level of Insulation added between Pre and Post Audit:

R-10 to R-22	Max Rebate: \$900
Greater than R-22	Max Rebate: \$1,500

Exterior Crawl Space Wall:

Min 20% of the area required to qualify. If insulating both crawlspace walls and basement walls, max rebates for both combined cannot exceed \$1,500.

Level of Insulation added between Pre and Post Audit:

R-10 to R-22	Max Rebate: \$600
Greater than R-22	Max Rebate: \$1,200

Crawl Space Ceiling:

Insulate 100% of ceiling above Crawl space.

Level of Insulation added between Pre and Post Audit:

Greater than R-24	Max Rebate: \$1,200
-------------------	----------------------------

Exposed Floor:

Minimum 120 sqft of area required.

Level of Insulation added:

Minimum of R-20 to the entire exposed floor area	Max Rebate: \$300
--	--------------------------

Air Sealing:

Achieve the Base Target on your Renovation Upgrade Report	Max Rebate: \$200
Achieve 10% or more above the Base Target on your Renovation Upgrade Report	Max Rebate: \$250

*\$600 assessment fee rebate, only paid once per premises for duration of this program.
